A Message From
TWU Local 100 President John Samuelsen

Vote Yes!

Brothers and sisters, we have secured a contract with inflation-beating raises - and plenty of other strong economic gains.

Most importantly there are no healthcare concessions or any other givebacks in this agreement.

This is a contract that will improve the quality of our lives, both on and off the job, in very real and tangible ways. It will correct longstanding deficiencies across the system with significant advancements, including: better work boots and shoes; a boost in every step of the longevity pay; a jump in the premium articulated bus operators now receive; and improved facilities for women with a contractual commitment to build with in-house forces.

We secured the ability for all workers with at least 10 years on the job to cash-out unused sick days without any strings attached – and start retirement with huge cash payouts.

Under the current contract, a 30-year veteran with 40% of sick days in the bank can’t cash-out a single day. Zilch. Now, that worker, for example, assuming an hourly rate of $30, would get a check of approximately $19,000.

Like I said, it’s a very solid contract. I wholeheartedly urge everyone to vote Yes.

While inflation averaged 1.6% last year, your annual salary will increase 5% under this new agreement. You will receive a 2.5% raise immediately upon ratification. You will then get a second 2.5% increase in February 2018. Then everyone will receive a pensionable $500 cash bonus in March 2019.

That’s tens of millions of dollars more than what MTA bosses claimed they could afford, or wanted to pay. But it’s just the first batch of significant financial gains we wrested from the company.

For example, annual longevity pay is going up $250 for each step. The annual Maintainers’ bonus is rising by $180 to $500. The night differential for everyone is going up for the first time in at least a decade, and subway station cleaners, for the first time ever, will get time and a half for any and all snow removal.

We also compelled the M.T.A. to finally adequately recognize the additional stresses and challenges that Bus Operators face driving the oversized articulated buses on the streets of NYC every day. The articulated premium will rise from the existing 25 cents to $1 upon ratification. That’s a 300% jump, and it’s the first such increase since the articulated buses came into the system.

We even won a first time ever “Me Too” clause on wages with the Long Island Rail Road unions and every other bargaining unit that has contracts with NYC Transit, MaBSTOA or MTA Bus. LIRR workers have the lawful right to strike and if they do so and win bigger wage increases, Local 100 members will get them too.

These are all victories. Real victories. And they didn’t just happen magically. We obtained these gains because we stood together and waged a multi-faceted campaign, including television, radio and digital ads that raised awareness about our value to this city, the dangerous nature of our work, and the sacrifices we make to move 8 million riders a day.

We conducted a massive survey to correctly identify union-wide and divisional priorities. We organized in the depots, shops, yards and stations. We held a kick-ass rally outside MTA headquarters. More than 7,000 of us rallied in solidarity and let the MTA know on that November night that we needed to secure wages and other economic gains that keep us well ahead of inflation.

We prevailed against the negative forces inside our own union who shamefully and publicly declared that they would “scab” their own brother and sister transit workers if this fight had to be taken to another level.

We now can lock down these economic gains and benefits for more than two years. That opportunity couldn’t have come at a better time. We are entering a new era of federal government uncertainty as a new President enters office. With this contract in place we are insulated against potential federal government cuts to public transit funding, and any other uncertainties that may arise. The politicians and billionaires who have been waging war on the trade union movement are now more powerful than ever. They will come after us.

Let’s ratify this agreement and position ourselves to face the coming attacks.

* Add in longevity pay increases, night and weekend differential hikes, increases in articulated premium pay, snow bonus pay for cleaners, increases in maintainer bonus pay, and many other sweeteners in the departmental agreements, and transit workers will be taking home significantly more money to take care of their families every year. Also, important improvements in the dental plan mean even more money staying in your pocket for other family priorities.

EMPLOYEE AVAILABILITY

1. OTO:

Paragraph 2 of Attachment A of the January 16, 2009 to January 15, 2012 Impasse Arbitration Award shall be superseded and replaced with the following:

Employees may elect to bank overtime hours in lieu of receiving overtime pay (OTO). Employees who elect to bank overtime hours shall bank hours at straight time and shall receive pay for the premium portion of the overtime worked. OTO time may be banked up to a maximum of 108 hours at any time and may be carried over from year to year.

Use of banked OTO time as paid time off shall be within established AVA/personal day quotas. Utilization of such banked time beyond these established quotas must be approved by Management. In schedule-driven Departments (such as RTO, Bus Transportation, and Stations), OTO time shall be used in increments of whole days only. There shall be an annual cap on usage of OTO time of 72 hours, except that in schedule-driven Departments, where OTO time can only be used in increments of whole days, employees shall be able to use OTO time in accordance with their schedule up to a total of 9 occurrences per leave year.

Employees may only cash-out banked OTO time on a quarterly basis. Employees who elect to cash-out OTO time must submit such election on a form to be supplied by the Authority no later than the last day of the final full pay period of the quarter. Cash-out payments shall be received in the pay check for the first full pay period of the following quarter.

2. Employee Availability Pilot Program:

The parties recognize the impact that employee availability has on the efficient operations of the Authority and have agreed to enter into a pilot program with the goal of improving employee availability. The pilot program shall include the following:

A. Career Sick Leave Cash-Out: Effective May 1, 2017, Section 2.6, Paragraph V shall be amended so that employees will no longer be required to have a minimum of half of their potential sick leave bank at the time of voluntary separation or retirement in order to be eligible for the cash-out.

B. Annual Sick Leave Cash-Out: Effective November 2017, an employee who has no sick leave usage in the previous year, measured from November 1 through October 31, may, at the employee’s option, cash out up to six (6) sick days. An employee who has used one (1) sick day in the previous year may, at the employee’s option, cash out up to three (3) sick days. An employee who has used two (2) sick days in the previous year may, at the employee’s option, cash out one (1) sick day. For 2017 only, sick leave usage shall be measured from full and final ratification through October 31. Cashed out sick days under this provision will be deducted from the employee’s potential and actual
available sick leave balance for purposes of the yearly 70%/30% sick leave calculation
and for purposes of the sick leave cash out upon voluntary separation/retirement.

C. In order for this pilot program to continue, there must be at minimum a two (2)
day decrease in overall leave usage for employees represented by the Union. The
categories of leave usage included in the calculation shall be paid sick leave, unpaid sick
leave, AWOL, leave of absence and Workers’ Compensation/IOD. The two (2) day
improvement shall be measured from May 1, 2017 and must be achieved over a two (2)
year period ending April 30, 2019. The baseline for the two (2) day improvement shall
be the annual average of leave usage in the above specified categories for the two year
period from October 1, 2014 through September 30, 2016. The Parties will monitor the
progress of improvement and the Authority retains the right to terminate the program
during the two (2) year period if overall leave usage does not improve, but shall not
terminate the program before May 1, 2018. Upon completion of the two (2) year period,
if there has not been at least a two (2) day improvement in overall leave usage, the
program shall terminate and the provisions of the CBA shall apply. However, should
there be an improvement of at least 1 ½ days in overall leave usage upon completion of
the two (2) year period, the Authority agrees to meet with the Union to discuss and
evaluate the program. Following such discussions, the parties may agree to continue the
program; however, the Authority reserves the right to end the program at any time after
the two (2) year period is completed should there be no additional improvement and the
two (2) day target is not achieved and/or maintained.

D. Gainsharing Program: In order to encourage additional improvement in employee
availability, the parties agree to establish a Gainsharing Program for additional
improvement to employee availability beyond the two (2) day target set forth in
Paragraph 3 above. Under the program additional savings shall be divided as follows:
1/3 to employees, 1/3 to the Authority, and 1/3 to provide service enhancements to the
public. If the Union achieves an overall improvement of 2.5 days or more, the employee
share shall increase to 1/2. The parties shall establish a joint Labor/Management
committee to discuss the parameters of the program including when availability targets
will be measured, the frequency of potential payments to employees and/or other
potential uses for the savings generated from availability gains.

WHEREAS, the parties have agreed in principle to the terms and conditions of employment for all LOCAL 100 members working at MTA BUS; and

WHEREAS, in arriving at such agreement, the parties have agreed to the formation of a Drafting Committee which shall be tasked with memorializing each of the individual agreements reached; and

WHEREAS, the parties have agreed to include in the final document the items listed below as a full and comprehensive agreement, which shall become part of the LOCAL 100 TA/OA/MTA BUS collective bargaining agreement.

NOW THEREFORE, it is hereby agreed to by and between the parties hereto as follows:

1. The parties have agreed to utilize the College Point collective bargaining agreement (as raised by the June 9th, 2009 Award and the November

2. The parties have agreed to the following amendments to the College Point collective bargaining agreement, which shall be applicable to all LOCAL 100 members at MTA BUS:

   a. Up to two (2) weeks vacation days may be split/taken in individual days

   b. MTA BUS will reimburse the full cost of a CDL for all LOCAL 100 members whose job requires one.

   c. The current “in lieu of” days will be converted and replaced with a system of accumulating AVA Days for all LOCAL 100 members at MTA BUS on the same terms as TA/OA Department of Buses

   d. LOCAL 100 members at MTA BUS will be entitled to utilize the Safety Resolution form and procedures contained in the TA/OA collective bargaining agreement.

Re: Alternate 40-Hour Work Week

Dear Mr. Phua:

This is to memorialize our discussion and agreement in regards to the creation of an alternate work week schedule in the Division of Service Delivery (RTO). The parties recognize that as a result of an influx of additional capital construction projects during weekend hours for work train operators and construction flaggers, operational needs require flexibility with scheduling. As such, the parties agree to meet within ninety calendar (90) days following the ratification of the parties collective bargaining agreement to discuss a mutually agreed upon alternate work week schedule, working conditions and pay provisions. Should the parties fail to reach an agreement at the conclusion of the ninety (90) days, the parties may extend the period to have further discussions upon mutual agreement.

If the aforementioned reflects your understanding, please indicate your concurrence below.

Very Truly Yours,

1) **Four Day Work Week Committee**

The parties hereby agree to the formation of a Joint Labor-Management Committee comprised of equal members appointed by Management and Transport Workers Union Local 100 not to exceed 4 members from each party, to discuss and explore in good faith the potential of devising and implementing (whether on a Pilot Program basis or otherwise, initially in the Brooklyn Division) schedules that would accommodate a four (4) day work week for Bus Operators.

On a one time basis, the Authority agrees to provide preventable accident training as set forth in Paragraph 6(a) to elected Union officials and union attorneys who have not previously received such training. Such training will be scheduled at the discretion of the Authority. In the future, such training will continue to be provided as set forth in Paragraph 6(a) in conjunction with the training of newly selected preventable accident arbitrators or every three (3) years for new Union Officials if no new preventable accident arbitrator training has been conducted during that period.
