

JOIN THE FIGHT AGAINST COVID-19

Help protect your TWU Local 100 brothers and sisters.

Take advantage of the early detection COVID-19 testing program at MTA bus depots, subway locations and MACs. Testing is also available at Northwell Urgent Care facilities.

It's free, easy and the right thing to do.

You can have COVID-19 – and not know it.

It can take days for symptoms, like a high fever, to emerge.

The earlier you know, the sooner you can quarantine and get medical attention – so the virus doesn't spread to co-workers, family members and neighbors.

JOIN THE FIGHT. STOP THE SPREAD

The testing schedule is updated regularly and available through the MTA employee portal, and posted at twulocal100.org and on TWU Local 100's FaceBook page: fb.com/TWULocal100
