

TWU Local 100 Elections Committee Final Eligibility Report

Pursuant to the Election Rules, Nominating Petitions were due back by 6:00 P.M. Friday, October 2, 2015. In all, 1,393 petitions were filed with a total of 43,075 signatures, by two slates and 27 independent candidates. The Candidates or their authorized representatives had two days to review the Petitions and make whatever written objections they wished to make by close of business Tuesday October 6, 2015. A series of objections were filed. First duplicate signatures on one slate's or candidate's Petitions were eliminated. This resulted in the "Potentially Valid" number. All Petitions were then checked against the Union's current list of good standing members (members who do not owe dues). The signatures of members in bad standing or not active were deducted. In the course of this check, signatures without pass numbers were not counted and signatures that did not match pass numbers were not counted. Where a signature was difficult to read and the pass number indicated a name that bore some relationship to the signature, the signature was counted. If someone signed in a division or department for which s/he was not eligible to sign, that signature was deducted. The Committee then eliminated signatures on several Petitions where the witness statement was signed by someone who was not a member in good standing. In the Report below we set forth the total number of signatures submitted for each candidate/slate, the number which were left after duplicates are eliminated (called "Potentially Valid"), and the total number of valid signatures remaining after deductions are made ("Total Valid"). Where a candidate is not eligible, that is indicated. All candidates *not* noted to be ineligible submitted enough signatures to be eligible for the position for which they were nominated.

Stand United Slate got the most signatures for the top four positions, so their candidates will have Row A on the ballot. Transport Workers United Slate will have Row B. Independent candidates will be placed on the ballot beginning on Row C ranked by the number of good signatures set forth below.

Any party who wishes to contest the determination of the Elections Committee has 48 hours from the date of this Report to appeal to the Neutral Monitor.

The Elections Committee has reviewed the protest by Transport Workers United Slate to the collection of certain Stand United Slate signatures in MaBSTOA 1. It is noted that the protestors have not produced the name of one person on the SUS-witnessed MaBSTOA 1 Petitions who states that he or she did not sign a Petition tendered to them from Stand United Slate. As there is no apparent pattern of fraud, the Committee has rejected this protest and did not reduce the number of signatures. Even if the signatures challenged were eliminated, the candidate would have qualified.
