

THIS IS GROUND CONTROL TO MAYOR BILL...

You shrug your shoulders and claim you have no responsibility to the 6 million daily subway riders.

You refuse to participate in fixing the subway to end New York City's Summer of Hell, while City Hall has a \$4 billion surplus. *Really?*

Come back down to Earth, Bill...

... **because down here**, NYC City Comptroller Scott Stringer, the Daily News Editorial Board, the New York Times Editorial Board, watchdog groups, and riders all agree: **Mayor de Blasio must do his part.**

The state is paying 50% of the cost and so should City Hall.
A 50-50 split is undeniably fair.
