# ADVISORY

## Be Alert to Bogus 'Coupon' Calls

Some members are reporting that they have received calls supposedly from Prescription Solutions (OptumRx), in which the caller offers \$500 in coupons.

Members have been asked to give their credit card details. OptumRx never calls members offering to sell them coupons or discounts.

If you get such a call, hang up.

**Do not give out your credit card details. If you think you may have been victimized, call your credit card issuer immediately for assistance.**
