Troubleshooting

1. I received an error for "Invalid Username and password."
 - Ensure you are using the provided username and password.
 - Ensure password is typed in lower case.
2. Can I manually refresh the data?
 - Yes, by clicking on the "Reload this page" icon at top of the browser. However, if no one has picked during that time, there may not be any new information to be displayed.

3. The website did not load or does not look like it loaded properly.
 - Ensure you are using Google Chrome instead of Internet Explorer (IE).
 - Ensure you are using the right link. There are separate links if you are using MTA WiFi/network or using your own mobile carrier's network.
4. In some columns, I am unable to see all the details of the job.
 - These displays are better suited if viewed as a full-screen (desktop).
5. I am unable to find a job listed in the work program in the available/picked jobs screen.
 - If searching in the available jobs screen, the job may have already been selected. Try searching in the picked job screen.
 - If searching in the picked jobs screen, the job may still be available. Try searching in the available job screen.
6. I don't see all the job notes associated with the job such as the stations it covers.
 - Refer to the posted Work Program to see additional details for the job.
7. When I turn my phone sideways to landscape mode, I can't scroll to see the jobs available or picked.
 - Due to the amount of job details, the website if viewed on a mobile device, is best in portrait mode.
8. I entered the username and password but my screen remained on the login screen and is glitching/blinking.
 - You may already have an active session in a different screen. Close the window and any other active sessions and try again.
 - If issue persists, clear your browser history (remove cookies and cache) in your browser's settings, close browser window, and try again.

Troubleshooting

1. I received an error for “Invalid Username and password.”
 - Ensure you are using the provided username and password.
 - Ensure password is typed in lower case.
2. Can I manually refresh the data?
 - Yes, by clicking on the “Reload this page” icon at top of the browser. However, if no one has picked during that time, there may not be any new information to be displayed.
3. The website did not load or does not look like it loaded properly.
 - Ensure you are using Google Chrome instead of Internet Explorer (IE).
 - Ensure you are using the right link. There are separate links if you are using MTA WiFi/network or using your own mobile carrier’s network.
4. In some columns, I am unable to see all the details of the job.
 - These displays are better suited if viewed as a full-screen (desktop).
5. I am unable to find a job listed in the work program in the available/picked jobs screen.
 - If searching in the available jobs screen, the job may have already been selected. Try searching in the picked job screen.
 - If searching in the picked jobs screen, the job may still be available. Try searching in the available job screen.
6. I don’t see all the job notes associated with the job such as the stations it covers.
 - Refer to the posted Work Program to see additional details for the job.
7. When I turn my phone sideways to landscape mode, I can’t scroll to see the jobs available or picked.
 - Due to the amount of job details, the website if viewed on a mobile device, is best in portrait mode.
8. I entered the username and password but my screen remained on the login screen and is glitching/blinking.
 - You may already have an active session in a different screen. Close the window and any other active sessions and try again.
 - If issue persists, clear your browser history (remove cookies and cache) in your browser’s settings, close browser window, and try again.
