

## Attention TWU Local 100 Station Agents

# Is Fare Evasion OUR Problem?

**YES** -- If the fare evader goes on to assault a transit worker or a rider.

**NO** – If law enforcement isn't up to arresting those who violate the law.

Transit is asking our Station Agents to use a worksheet and app to tally the number of fare evaders. We are not to confront the fare evader but to register the crime when it happens. Because assaults and vandalism in the system are committed by individuals who jump the turnstile, it's our problem, too. Your leadership supports the documentation of fare evasion.
