

# Station Update

## *Deep Cleaning and Mobile Wash —January 29, 2019*

Greetings,

The following format will be the new way of providing you truthful and sound information. As many of you know, we entered into office a little under 30 days ago. During such time, we have met with upper management to discuss your issues. One of the most talked about issue is contractors.

We took immediate action to secure language that is not in our contract to protect Cleaners. Management wanted to go beyond the scope of what the Mobile Wash performs. That includes, cleaning every item on stations over and beyond 30 feet high.

Most of the work performed by our in-house cleaners does not go beyond the comprehensive and aggressive approach management wanted to take.

All Cleaners now have definitive language that protects them in the newly signed agreement.

Additionally, we have our own in-house Mobile Wash members observing the work being performed by the contractors, and they are being paid. At the completion of this six month term, all Cleaners will be responsible for maintaining the work exclusively written in the agreement.

**In closing,**

**This does not stop the aggressive attacks by management. As far as the Cleaners are concerned. They now have language with full protection that wasn't there before!**

**As we continue to restructure our department. It is my commitment to keep all accurate information in its proper forum. It is important that you come to Division Meetings. The next Division Meeting is on Thursday, February 28, 2019 at 10:00am or 5:00pm.**

Always positive,  
Lynwood Whichard  
Station Department  
Vice President
