

10.2.10
WASHINGTON, DC

**PUTTING AMERICA BACK TO WORK
PULLING AMERICA BACK TOGETHER**

**Get On
The Bus!**
Be part of
the movement!

DEMAND CHANGE

OneNationWorkingTogether.org

On October 2, 2010, the U.S. Labor Movement will stand together for jobs for All Americans. Stop funding Wars and Wall Street. Bring it home to Main Street!

We're Going to Washington to Make These Points:

Give Americans more Spending Power. Riding public transit saves individuals \$9,293 by cutting out automobile and gas expenses.

Re-Industrialize and Build Mass Transit Infrastructure.

Our lagging economy needs more federal spending – and the best way to bring products and people to markets is to invest in more buses, trains, and light rail built in the U.S.A.

TRANSIT JOBS ARE GREEN JOBS.

Using public transportation means significantly lower greenhouse gas emissions per passenger mile.

Reduce Dependency on Foreign Oil. Foreign oil means continued American involvement in wars in the Middle East and Asia, and continued cooperation with dictatorial countries like Saudi Arabia, where human rights and union rights are non-existent.
