Union and community members are standing together to save our city from devastating budget cuts and layoffs. Join us as we rally in support of our city workers and city services: our schools, our hospitals, our libraries our firehouses, our parks, our senior centers and more.

Cuts and layoffs are not the answer – and they aren't necessary. The city now has a surplus of more than \$3.5 billion, and there are also many common sense alternatives are on the table, ready to be discussed.

Tell Mayor Bloomberg and our other elected leaders to Save Our City.
