MTA HQ Procurement

System-Wide Contracts Management

FAQs- Prescription Safety Eyewear Program

Question #1: What is the purpose of this Program?

Answer: Like in previous years, MTA continues to provide contracted eye protective equipment to ensure employees' safety while on duty. The current vendor is **Precision Optical group**. This contract is **NOT** associated with your vision benefits. You must continue to obtain your eye exam from an in-network practitioner consistent with your vision plan.

Question #2: What is the role of Department /Division Liaisons?

Answer: Provide request forms to employees who are eligible for prescription safety eyewear. Once the request form is properly filled out the liaison will approve the form and can also place the order for the eyewear with the vendor. The liaison office will also distribute any eyewear received from the vendor, as necessary. Finally, the liaison will advise and work with the Project Manager on any program issues.

Question #3: How does the Program work?

Answer: To obtain Prescription Safety Eyewear, the eligible employees...

1. Obtains a request form from his/her department/division liaison (or designee).
2. Gets an eye exam through a provider from his/her vision benefits plan and ensures that the provider completes Section II as well as the bottom portion of Section III.
3. Brings the completed form to one of Precision Optical Group's participating store locations (listed on the Poster) to be fitted. If the employee already has a prescription from his/her vision benefits provider, he/she can bring the prescription with the request form to Precision's store location for frame selection and fit service.
4. Returns the form to his/her department/division liaison for final approval.

Note 1. The liaison can either place the order directly with Precision, or return the approved form to the employee so that he/she can submit the order at any of the vendor's store locations.

Note 2. Orders placed at the store can be picked-up at the same location. Orders submitted by the department/division liaison can be either distributed internally or, if approved, delivered to the employee's home (signature required).

Question #4: What's changed from the previous Prescription Safety Eyewear program?

Answer: This program now offers home delivery with your department/division's approval on the request form. However, as in the past, eye exams are **NOT** included in this program.

Question #5: Does this program cover eye exams?

Answer: No. This program only covers safety eyewear. Eye exams are covered separately by your **vision benefits plan**.

System-Wide Contracts Management
FAQs- Prescription Safety Eyewear Program**

Question #6: Where should employees go to have an eye exam?

Answer: Employees should contact their vision benefits plan provider – i.e. EyeMed, GVS, etc., for in-network coverage.

Question #7: Does Precision Optical Group accept NYCT's vision Insurance?

Answer: No. Precision Optical Group makes the safety eyewear from your prescription which must be obtained through your vision plan.

Question #8: What is the purpose of visiting Precision's store location?

Answer: The store locations will ensure that the selected frame fits properly and correctly based on your face dimensions and prescription.

Question #9: Are the store locations owned/operated by Precision Optical Group?

Answer: No. Under this program, the store locations are authorized optical stores to assist NYCT employees in selecting their safety eyewear frames, accepting employees' orders, and making the eyewear available for pick-up (depending on delivery method selected).

Question #10: What should I do if I receive my safety eyewear and it has an error?

Answer: Contact your department/division liaison and they will work with the NYCT Project Manager to resolve the issue with the vendor in a timely manner.

Question #11: What is the role of Precision Optical Group's Customer Service Center?

Answer: Precision's Customer Service center can assist NYCT employees with general inquiries regarding the eyewear contract as well as their order status, including tracking information. However, the call center will **NOT** be able to accept orders, nor answer questions regarding your vision benefits or other insurance related matters. Please direct any vision benefits or insurance questions to your vision benefits provider. For your vision benefits provider information, contact your HR representative, MTA BSC at 646-376-0123, or utilize the self-service portal at www.mymta.info.

Question #12: What is the role of the NYCT Project Manager?

Answer: The NYCT project manager administers the contract as well as manages the business relationship between MTA and Precision Optical Group. The NYCT Project Manager is also the point of contact for the department/division liaisons.
