Attention New York City Transit Authority:

We, the undersigned members of TWU Local 100 declare that:

Whereas, TWU Local 100 Car Inspectors have not had a pick for over two years, and **Whereas,** by this action the Transit Authority has violated the 2005 Collective Bargaining Agreement (p.16 sec.3) which states:

"Car Equipment will conduct one (1) annual system-wide pick for each title during odd numbered years and two (2) system-wide picks during even numbered years beginning in 2006."

We, the undersigned members of TWU local 100, believe the Transit Authority has included lock-ins and excluded job descriptions to delay and deny Car Inspectors their contractually guaranteed rights. We do hereby demand in this petition that the Transit Authority conduct a system-wide pick for Car Inspectors without lock-ins and including job descriptions without further delay.
