*Members have flexibility to apply their allowance to any hearing device under this schedule.

About Hearing Loss

Many people are unaware that their hearing has deteriorated, and are thus reluctant to seek help. Hearing loss does not just affect you as an individual, but it affects everyone around you. Most hearing loss is irreversible and cannot be cured. However, with the aid of modern digital devices, you can hear more effectively.

SIGNS OF HEARING LOSS

- Difficulty hearing in noisy environments
- The need for frequent repetition
- Responding inappropriately to conversation
- Refraining from favorite hobbies and activities
- Mistakes in the workplace

POTENTIAL EFFECTS OF HEARING LOSS

- Anxiety, irritability, and helplessness
- Stress, depression and paranoia
- Isolation and social withdrawal
- Increased risk to personal safety (e.g. not hearing fire alarms)
- Reduced job productivity and costly errors
