**TRACK VIDEO INSPECTOR (TRACK GEOMETRY VIDEO) SPECIALIST (5) POSITIONS**

**Duties:** Applicant must have held a qualifying Track Inspector or ERT job assignment within the last year. Applicant must have an excellent working knowledge of all tracks in all divisions of the NYCT system and must be very proficient in the understanding of track conditions, track geometry and track devices, and in the detection and interpretation of track defects as per the MW-1 Track Standards Manual. Must be willing to become very proficient on how to read and interpret the Track Geometry Car printouts and Signal Drawings. Must be computer knowledgeable, and able to use USB memory devices, external hard drives, printers and other personal computer equipment. Applicant must be proficient with computer software and hardware, and must know Excel, Access, Word and be familiar with the Windows 7/10 operating systems; and be able to learn and use the specialized Offboard programs to analyze and review the Video Data collected by the Track Geometry Cars. Applicant will be required to prepare detailed reports of track defects found by the Video Systems used by the Track Geometry Cars, and distribute the reports expeditiously and accurately to Track Maintenance Subdivisions for corrective action. Applicant must be able, using specialized software, to detect, compare, report and confirm track defects found on the rails, fasteners, ties and other track devices by reviewing and analyzing the video files obtained with the Video Systems on the Track Geometry Cars, applying MW-1 Track Standards. Must recognize and evaluate field conditions collected from the Video data. Must have knowledge of track devices and their uses. Employee must be able to work Day or Night tours as required by the needs of the Track Video reviewing program; working hours and RDO's may change at any time due to the needs of the Track Geometry Cars' testing schedules; proper notice will be given and all contractual provisions will apply.

If upon completion, after training, of a 30-working day probationary period and the successful completion of a proficiency exam, the employee fails to qualify for this position, they will be reassigned to whatever vacancy exists at that time. Upon qualification, the employee will be subject to a semi-annual Managerial evaluation and review of his/her performance. In the case of deficient performance, the employee may be recommended to be either re-trained or reassigned.
