

# The TWU Local 100 Executive Board and President John Samuelsen Say: **TRANSIT WORKERS ARE FEELING THE BERN**

## Here's Why Bernie Sanders is Labor's Best Candidate

### Solidarity with Striking Workers

Bernie has walked the picket lines with striking workers for decades. He is there for unions big and small.

### Education for Our Children

Bernie's tuition-free college plan is paid for by a tax on Wall Street. Our kids won't be saddled with huge loans.

### Our Environment and Our Future

Bernie believes in mass transit as part of the solution to climate change. Only Bernie is tough enough to go up against the fossil fuel industry.

### Our Retirement

Bernie will expand Social Security and protect our pensions so we can retire with dignity.

### The Economy

Bernie will regulate Wall Street and prevent another big bank robbery by the "too big to fail cartel."

### Our Jobs

Bernie's \$1 trillion infrastructure plan will fully fund expanded mass transit, and create 13 million new jobs – many in transit.

### American Trade Policy

Bernie voted against NAFTA and every disastrous free trade agreement of the past 25 years that have resulted in the closure of hundreds of thousands of manufacturing plants and the destruction of millions of good blue collar union jobs.

***"New York needs a jolt. Working families need a jolt. 'Business as Usual' is not going to give us the jolt we need. But Bernie Sanders will."***
