

TWU LOCAL 100 STANDS IN SOLIDARITY WITH CUNY STUDENTS

"An injury to one is an injury to all"

THE PUBLIC SECTOR IS UNDER ATTACK—

We demand better wages and working conditions from the MTA, and CUNY students and faculty demand the same from the CUNY Board of Trustees:

- The PSC-CUNY (the university's faculty union) has been **working without a contract**, just like us.
- **Tuition continues to rise** even though **wages remain stagnant**.
- Students are being **arrested for demonstrating** at their own university.
- The board of trustees is trying to pass a policy on "expressive activity" that **severely limits students' and faculty's ability to organize, demonstrates, and speak out** against these injustices.

Enough is enough! This is an attack on working people in New York. Join CUNY students, faculty, and community members in standing up for our rights in the public sector. Say no to privatization! Don't cut public resources!
